

QUARTER 1 Report
31 March 2021

MESSAGE FROM PRESIDENT

As the first quarterly report that CyclingSA has made available to our affiliate members and the broader community, I hope it provides insight into the current status and plans for CyclingSA. The report details our progression in delivering against our strategic business model and achieving our national development plans to **#GrowCycling**.

While the immediate future is uncertain due to the pandemic, there is light at the end of the tunnel. We continue planning for all annual national Championships, our national teams' participation at World Championships, and the Tokyo 2021 Olympic Games preparations. In terms of local, specifically mass participation events, I have formed part of several working groups and provided input and made recommendations for our mass participation road and mountain bike events to commence on a bigger scale. The submission has been made to government but has not yet been approved.

Congratulations to both **Ashleigh Moolman-Pasio** and **Greg Minnaar**, whose impressive performances during 2020, under challenging circumstances, were recognised by the Department of Sport, Art and Culture Minister Nathi Mthwetha. You make us proud!

I want to thank my team, the executive board, staff, commissions, volunteers and cyclists for their passion and dedication to the sport of cycling. I believe that together, we can and will achieve great things this coming year.

GOVERNANCE AND ADMINISTRATION

GENERAL

CyclingSA now runs a virtual office through Microsoft 365 to overcome the pandemic's obstacles. We have embraced the benefits of working in a cloud-based format with a team located in different parts of the country. The next step is to offer better-integrated service delivery to the provinces, commissions, committees, and panels by accessing shared files

and folders applicable to them. We are hopeful that this will close the disconnect between different entities.

Next Steps we are focusing on during Q2:

- Affiliate Corporate Governance Audits by evaluating and making recommendations to conform with the CyclingSA constitution and proposed Executive structures.
- Continue engagements with academies to assist the offerings from the affiliates and to build strong working relationships.
- Roll out of our capacity building and education projects.
- Work closely with SASCOC regarding Olympics selection and operational planning.

CyclingSA trialled the ShowWave Covid-19 screening portal at Road Champs and SA XCO Cup last month. The ShowWave app is directly available to any event organiser to ensure compliance of the participants at events. EO's can contact secretarygeneral@cyclingsa.com for further information.

MEMBERSHIP

Unfortunately, we continue to see a decline in terms of our membership. It is understandable as there are limited events taking place, but we want to thank those who have continued to support the federation during these difficult times.

- CyclingSA Membership
 - From 1 January 2021 to date, we have seen membership renewals/purchases for the first quarter decreased by 44.6% compared to the same period before we went into lockdown during 2020.
- Racing Licenses
 - In comparison to 2020, racing license purchases for the first quarter of the year have also decreased by 46.16%.
- Day Memberships
 - CyclingSA day membership now includes a medical insurance cover benefit for day membership holders. This medical insurance cover is in line with the UCI regulations, which stipulates that all riders participating in sanctioned events must have medical insurance.
- International/UCI Licenses
 - Riders and support staff racing and working internationally now require an International UCI Racing Licence. Please contact membership@cyclingsa.com to assist with the additional supporting documentation necessary for the licence upgrade.

KEY MEETINGS

- General Assembly
 - The Annual General Meeting took place as a hybrid format on 20 February 2021. The Presidents report is available via this [link](#).
- Provincial Council
 - A new chairperson, Qondisa Ngwenay, was elected.

- Provincial Council meetings are scheduled for 17 April, 19 June, and 16 October 2021. We urge the members of clubs, regions and provinces to communicate any issues they would like to have addressed through these structures.
- Governance and Administration Committee
 - Governance meetings with the administration now take place monthly.

COMMISSIONS

SASCOC Commissions

Three of our representatives now serve on the following SASCOC commissions:

- Ciska Austin - Policy Development Commission
- Elton Davids - Education and Culture Commission
- Ernst van Dyk - Athlete's Commission

Riders Commission

The riders representatives of CyclingSA's Rider's Commission are elected during the National Championship events of each discipline. The Commission consists of a male and female Junior, U23 or Elite athlete from each discipline. During the course of 2020, each discipline commission had nominated interim representatives to represent each discipline with David Maree being the national representative. We are now following the process as per the constitution and have elected the Road Cycling and Para-Cycling representatives following a nomination and election process. We congratulate the following members appointed to the commission:

Elected:

- Road Cycling: Daryl Impey and Kerry Jonker
- Para-Cycling: Pieter du Preez and Toni Mould

Interim until election:

- Track Cycling: David Maree and Claudia Gnudi
- Mountain Biking: Sarah Hill
- BMX: Byron Robertson

The Executive Board is recommending to the commission to include Ernst van Dyk as part of the commission as he serves on SASCOC's Athlete's Commission representing all cycling disciplines.

POLICIES AND REGULATIONS

All policies have been updated and are published on our website. Herewith the [link to all governance policies](#):

ETHICAL MATTERS

The Independent Compliance and Advisory Board (CAB) is responsible for overseeing risk management, ethical and arbitration matters of the Federation with oversight of constitutional structures.

Key issues addressed:

APPEAL FOR THE ELITE AND U23 WOMEN AFRICAN CONTINENTAL CHAMPIONSHIPS SELECTION

An appeal was lodged by Hayley Preen on 10 February 2021 following her non-inclusion as part of the starting team for the African Road and Time Trial Championships in Egypt, as announced on 9 February.

Following the appeal, a panel of five members was appointed, consisting of a representative from the Independent Compliance and Advisory Board (CAB), one selection convenor each from Track and MTB, and two additional independent representatives.

The appeal panel recommended that the Road Commission appoint two additional selectors to review and reselect all riders' for the women's team.

The selector's panel decided that the only change to the team should be for Hayley Preen to be included as a starting team member, with Courteney Webb as the reserve rider.

NATIONAL COMMISSAIRE HANDED A FIVE YEAR SENTENCE FOR UNETHICAL BEHAVIOUR

Central Gauteng Cycling notified Cycling South Africa in January 2021 of a racist and unethical social media comment made by National Commissionaire, Mr Koos van Tonder. Mr van Tonder was immediately placed on preliminary suspension of membership by the Federation, pending a disciplinary hearing.

The Compliance and Advisory Board (CAB) appointed a disciplinary panel, and the panel convened a hearing during February 2021. Consideration was given to several factors in recommending sanctioning inclusive of:

- The seriousness of the accused's conduct;
- the accused's evident lack of remorse;
- the accused's lack of a proper and timeous apology to any affected persons;
- the detrimental effect thereof on the image of CyclingSA.

Following the panel's disciplinary hearing and recommendation, CyclingSA suspended Mr. van Tonder's membership for five years. Mr van Tonder will serve the first two years, and the remaining three years of suspension may be suspended under specific conditions.

Mr van Tonder is not eligible to serve on any CyclingSA or Affiliate committees or commissions, have any involvement as an appointed official or form part of any event organisation until 25 February 2023.

CyclingSA is fully committed to creating a cycling community that is diverse and inclusive to all. While everybody has the freedom of expression, CyclingSA expects that appointed officials are not biased toward or against any member or participant.

We encourage members to report any behaviour that contradicts the Diversity and Inclusivity Charter or the Code of Ethics to CAB via the whistleblowing form on cyclingsa.com.

LYNETTE BURGER HANDED A FOUR-YEAR BAN FOR VIOLATING ANTI-DOPING RULE

CyclingSA confirms that Ms Lynette Burger, an elite national level cyclist, has been found guilty of intentionally violating an anti-doping rule by the South African Institute for Drug-Free Sport (SAIDS). SAIDS held the hearing on 16 March 2021, and Ms Burger had three weeks to appeal the panel's decision prior to SAIDS releasing the findings.

Full details [here](#).

FINANCE AND COMMERCIAL

FINANCE COMMITTEE

- The Finance Committee and Executive Board are responsible for the financial position of CyclingSA.
- The Finance Committee is responsible for the Financial Management Policy and travel-related Rules and Regulations of CyclingSA.
- The Finance Committee will oversee the drafting of the Financial Obligations and annual fees for CyclingSA. Once approved by the Finance Committee and Executive Board, it is presented to the and the General Assembly during a mid-year General Meeting. The Financial Manager will ensure that it is duly circulated and published.
- The Finance Committee advises management with guidelines and identifies risk-inclusive elements of short-to long-term financial implications.

GENERAL

The financial year of CyclingSA is from 1 September through 31 August. The 2019/2020 approved annual Financial Statements of CyclingSA [can be found here](#).

The Executive Board and Finance Committee approved the adoption of a new ERP (Enterprise Resource Planning) system following a review of different software packages and options as per our procurement policy. The ERP will help manage the finances, administration, and integration of the accounting and membership platform and the Federation and affiliates' monthly reporting.

The new ERP system will provide a fully integrated solution across all elements of finance and provide the much-needed authorisation, process and control for:

- Purchases and purchase orders
- Travel and subsistence expenses
- Enhanced internal reporting structures by allowing the chart of accounts to be segregated on a cost centre basis helping with transparency and better management of information for stakeholder reporting
- Monthly management accounts
- VAT – Tax type reports
- Built-in payroll functionality
- Online storage/filing of supporting documentation
- Smoother audit process due to centralisation of accounting information and supporting documentation
- Multiple, unlimited user access with restricted use
- Budgets
- Variance reports

The important features and benefits listed above will allow for more robust financial administration management, ensuring stricter governance.

The membership and licencing portal will also integrate with the ERP system allowing information to flow directly into the system, reducing time spent extracting and preparing revenue reports, and allowing more time to review and reconcile discrepancies. Live and up-to-date data and financial information will assist with treasury management, cash flow projections, income and expense forecasting. The ERP will provide the foundation for CyclingSA to realise its vision of aligning the operations to a corporate structure and growing capacity within the commercial, technical, sports, and transformation sectors.

COMMERCIAL

New revenue streams are being introduced in 2021, incorporating digital elements and leagues. These initiatives are likely to gain traction once we have more certainty about the Covid-19 pandemic.

In 2020, CyclingSA made a call for proposal and request for potential commercial development partnerships to assist with the alignment of our revenue model and commercial matrix to support our riders and teams. CHAMP, a sponsorship agency part of the DUKE Group situated in Cape Town, has been awarded the contract to assist us with this process.

The Executive Board will be working closely with the agency to review current properties and incorporate several innovative proposals, focusing on creating various options that allow beneficial and value-added partnerships with roleplayers in the industry and Corporate South Africa to be developed. Again - our strategic intent for the next four years focuses on grassroots development, capacity building, education, and the support of youth-specific events to lay a better foundation for the next two Olympic cycles.

POLICIES

- Para-Cycling Selection Policy 2021, including [updated criteria for Olympic Games](#).

ONLINE / eRACING

Following the successful launch of the first online World Championships in 2020, the UCI has confirmed eRacing as a separate discipline. CyclingSA will follow due course to include this discipline as part of our structures.

eRacing Commission

CyclingSA is calling on interested volunteers to contact the Secretary General to create a new eRacing Commission who will work closely with our Commercial as well as Sport and Technical Team to develop comprehensive national leagues and championships for all categories.

TRANSFORMATION THROUGH DIVERSITY AND INCLUSIVITY

To achieve success in better governance and growing our sport, our transformation and development plans are now managed and measured through the Diversity and Inclusivity Charter, approved at the AGM in February 2021. This charter aligns with the International Cycling Union (UCI) guidelines and better adheres to government's transformation charter.

The policy encompasses CyclingSA's commitment:

- To the principles of the active promotion of diversity, inclusivity and providing equal opportunities, encouraging social cohesion by using cycling as a form of activity to uplift previously disadvantaged communities.
- To be the catalyst driving all stakeholders through common programs, capacity building and development to achieve the federation's transformation objectives.
- To give explicit instruction to transform and be inclusive through the National Federation's constitution and its affiliates.
- To set goals to continue the transformation of cycling in South Africa through a National Develop Plan over a four-year period. For ease of planning, this will coincide with an Olympic Cycle.
- To be the custodian for the sport.
- To set goals and scorecards on a National and Provincial level.
- To take steps to prevent discrimination or other unfair treatment for its employees, members and volunteers, whether intentional or unintentional, direct or indirect.

POLICIES AND REGULATIONS

- [Diversity and Inclusivity Charter](#) inclusive of an implementation plan updated and accepted at the AGM held on 20 February 2021.
- The outcomes and deliverables are being reviewed and affiliates will receive communication in the coming weeks requesting information and assistance.

STRUCTURES REPRESENTATION

The CyclingSA executive board is required to have a minimum of 25% of a gender and also 25% black or white representation as defined in the amended constitution adopted 15 August 2020. Following the QGM held in February, CyclingSA's representation is:

- 25% Women / 75% Men
- 50% Black / 50% White

The Executive Board also makes provision for a Vice President of Diversity, which is a new portfolio, oversees the following commissions:

- Youth, Transformation and Development

- Women's Commission
- Para-Cycling Commission

The composition in terms of representation is:

- 25% women / 75% men
- 75% black / 25% white

CyclingSA staff contingent, all in management positions, consists of 100% BBEE recognised appointments:

- 1 Black Woman,
- 1 Coloured Male,
- 1 Coloured Female,
- 1 Indian Male,
- 1 White Woman.

Discipline Chairpersons do not have any specific requirements, but we can report that CyclingSA has:

- 25% Women / 75% Men
- 50% Black / 50% White

DEVELOPMENT

Permission has been granted from British Cycling for CyclingSA to use their pathway model and customise it to our demographics and regulations. The Coaching Commission will be working closely with High Performance representatives from the different disciplines to define our own pathway benchmarks. These benchmarks will align to the tiered national development plan inclusive of the engagement with grassroots communities, identification of talent, higher development and high performance.

POLICIES AND PLANS

- [National Development Plan 2021 - 2024](#): **#DevelopWithPurpose**.
- [Safeguarding and Protecting Children Policy](#) – is currently under review to be updated in line with best practice and the National legislation including the Sex Offenders Act, Children's Act, Child Care Act, Films and Publications Act, Domestic Violence Act and the Employment Equity Act when considering definitions around sexual harassment.
- Work in progress: Olympic and Paralympic Aspiration Framework and Benchmarks (Coaching Commission)

CAPACITY BUILDING AND EDUCATION PROGRAMS

As part of our capacity building programs, 80 candidates will attend the UCI Online Level 1 Coaching Course during Q2. This course is a month-long where candidates write an exam to obtain a UCI Coaching and WADA certificate.

We have a target to conduct 6 Level 1 Coaching Courses per annum meeting the demographic targets aligned with our transformation implementation plans. The first wave and candidates registered include the following:

- 25% Females
- 38% Black

Working together with the Para Commission, the focus will be placed on upskilling more persons with disabilities specifically within coaching, managers courses and administration.

DIGITAL ACADEMY

We will be launching an eLearning platform to educate individuals interested in working in the cycling industry. A team has been assembled to develop our curriculums which we aim to launch within the 2nd Quarter.

BUILDING CAPACITY

We are dedicated to being better activists for safer cycling conditions, as such we will work closely with entities already focused on this initiative and engage with government for support.

DRUG FREE SPORT

CyclingSA is assisting Professor Cora Burnett and Dr Lyndon Bouah with their research into Drug Free interventions and education. The research is acknowledged by SAIDS (South African Institute of Drug-free Sport) and obtained ethical clearance from the University of Johannesburg. It focuses on data collection in athletics, cycling and rugby. We support this research project aimed at evaluating the effectiveness of our anti-doping education interventions. We would like to invite our coaches, cyclists and other interested parties to give input into this research. Please contact the Secretary General to provide you with a link and password to the survey which is anonymous and will take about 15 minutes to complete.

COMMUNICATION AND DIGITAL

Brand development through better communication and improving our digital and social management platforms etc.

In addition to the [Membership and Calendar App](#), new platforms are currently being developed to improve and elevate CyclingSA's online presence, including:

- [New Governance site](#)

- [Community Directory](#)
- [Education Portal](#)

Discipline specific social media accounts have been set up and handed over to the relevant commissions which allows greater autonomy to communicate directly with their communities:

- [CyclingSA Road](#)
- [CyclingSA MTB](#)
- [CyclingSA Track](#)
- [CyclingSA BMX](#)
- [CyclingSA Para](#)
- [CyclingSA Women](#)
- [CyclingSA Youth, Transformation & Development](#)
